

FUCHS Fördertechnik AG gets supported by funds from the European Regional Development Fund (ERDF) of the European Union within the framework of the program "Internationalization of Small and Medium-Sized Enterprises (SMEs) and Market Development in Foreign Countries" of Schleswig-Holstein.

With the participation in the world's largest trade-fair for marine equipment "METSTRADE 2017", the company FUCHS Fördertechnik AG would like to maintain existing business relationships, but also create new sales channels. Perfectly matched to customer requirements, crane systems for commercial shipbuilding, offshore turbines and megayachts "made in Germany" are presented to the international industry by a modern stand-design. The Netherlands as the second-largest shipyard location for megayachts, is an important market that shall be further developed by this exhibition.

The "SMM" as the most important event of the maritime industry is taking place every second year. As an exhibitor, FUCHS Fördertechnik AG would like to underline its market position as one of the most important players in maritime crane construction and manufacture. The participation in the SMM 2018 serves the expansion of important customer contacts as well as the conclusion of important contracts. In order to be able to pursue and influence the latest trends and technologies of the maritime industry as the innovation leader, the exchange with cooperative partners and suppliers is very important and only possible at the SMM.

We foster the economy
